MB99 Tokens, Tickets and Passes

We continue the sale of the Emyr George collection, with not just Welsh pub checks, lamp checks and mining tokens. There are also a large number of English and Scottish tokens for sale this time. We're P to T in the alphabet for the lamp checks. There will be a final offering in the autumn from Emyr. Please note that we've slashed the price of Emyr's trade directories - they're all online at reduced fixed price.

We're also pleased to offer a small collection of theatre passes dating from late 18th/early 19th century onwards. They're always redolent of a heady time in theatrical entrepreneurship and high society.

Do use the key word and category search facility on the net and read right through the catalogue. There are crossovers between the categories especially on place names and themes; you may miss things otherwise. Also there are series from other vendors in the second half of the catalogue, including tool checks, railway related, and communion tokens.

All bidding will be done online with the usual closing time from 12 noon. You will need to register to bid and give yourself a user name (this is masked with first and last characters only shown). While you need to provide a debit or credit card to register, when you purchase from us you will have other options for payment. From the 'My Account' section you will be able to see what bids you're winning or losing, and can view your 'watch' list too. Please be sure to add our email address to your contacts (otherwise alerts from us may not reach you or end up in your junk folder).

If you do not have access to the internet, we can bid on your behalf as long as we receive instructions by **Monday 12 July, in the post or by email**, so you won't lose out with the new system. However, it is much, much better all round if you bid online.

Increments: In the future bids will increase in the following way:

£1-£20 £1 increments

£20-£40 £2 increments

£40-£100 £5 increments

£100 onwards £10 increments.

The auction uses proxy bidding so that you only see the current winning bid, not someone's maximum bid (think eBay). There won't be tied bids in the future - if someone else has bid your maximum before you, they win unless we have your instruction to increase your bid by a set number of increments e.g. 1 or 2 bids. There's no third party sniping facility but of course you can bid up to (almost) the closing time online. Be aware though that once the auction is calculating winning bids at the end you may not be able to place last minute bids. You will get an alert by email for lots won; at that point go to My Account and checkout 'bids won'. That then creates an order and gives you options to pay.

The buyer's premium remains at 5% plus VAT, in line with changes post Brexit. This will be added to your invoice (at present it's not automatic, working on that glitch, so you may have a supplementary request on this from us). The price online is the reserve if no bids registered. We reckon this is roughly half estimated price but loads of these tokens are seriously rare and known from only 1 or 2 examples. We're grateful for the assistance of certain collectors for their expertise. The Welsh pub checks follow the Cox brothers work: *Pub Checks of Wales 2005*. Other Welsh tokens can be found in *Cox Tokens, Checks, Metallic tickets, passes and tallies of Wales 1800-1993*. Those tokens starting with numbers over 2000 are from volume 2, (2012) and many of these recorded examples belong to Emyr, as noted in the text. The majority of tokens in this listing are very modestly priced and you may need to be brave if you really want a certain token. The prices in the last auction were sometimes phenomenal but deserved. So bid high, and bid early please!

All best wishes from us both, keep safe and enjoy the summer

Howard and Frances Simmons, Simmons Gallery Ltd

If you wish to pay by card please put your card details on the bid-sheet (card number, expiry date, last 3 numbers on signature strip) and name and address as written on your card and statements and sign your bid sheet before posting to us. Successful bids can then be sent out without delay which speeds up transactions to the advantage of all. **Do not send credit card details by email.**
